Welcome to Interior Motives

Great design is as unique as each person. For some it might be casual comfort, for others a formal reflection of success. In every case it should be an expression of personal style. Our goal is to guide our clients, and help them make the world they call home a more beautiful place.

Whether it's a cozy corner, a special room or an entire house, we always begin by listening. With years of experience to draw from, we consider not only your personality, but the function, form and budget that best suits your needs.

Creating a beautiful home is a rewarding experience. As Frank Lloyd Wright said, "If you invest in beauty it will remain with you all the days of your life."

LOGO DESIGN & BRANDING PORTFOLIO

Salon360 Logo and Branding

The concept behind the logo was that I wanted it to portray a very natural/green feel to it at the same time be sophisticated and elegant to cater to the salon and beauty crowds. I choose the seed as symbolism to allude to the fact that it is everything that you would need to start, and also that has potential to grow into something much more. Got two very positive comments from Aveda people, so I was really happy. The logo is then laid on white and black, and then two color versions were done. Then shown on implementation on business cards.

Urban Planet Media Entertainment Logo

This logo was commissioned by Sounds Inc. Publishing company for their non erotica side of production. They gave me these keywords as guidelines for their logo: Urban, international, city, diversified, positive, innovative, fun, transformational, inspirational, small world, neighborhood, celebrity. I took it and ran with it and came up with two versions for the logo, a 2 color and a 4 color.

If you look closely, there is a subliminal message incorporated into the logo.
